FAMILY LAW SECTION NEW ZEALAND LAW SOCIETY

Family Law Section Bulletin - Issue 396, 5 February 2020

The Ministry of Justice has been working on a new process called iJudgment that changes the way judges review and issue Family Court judgments.

iJudgment allows judges to review and authorise judgments on-screen, as well as listen to any relevant audio of proceedings to ensure that judgments are accurate. iJudgment has already been successfully implemented in the criminal jurisdiction.

The new process will be going live in the Family Court on **24 February**.

It is important that the registry has current email addresses for lawyers. If your email address has changed in the last six months please provide an updated email address to the court registry you attend on a regular basis before 24 February.
